

What does “maintain class size policy” in the referendum question mean?

The District uses targeted class sizes to staff our buildings. Those targeted sizes are listed below. Currently when a class size exceeds the target, the District is not able to add an additional teacher. If we exceed that top target, the referendum monies would allow the District to add additional sections as needed.

Elementary targeted class sizes:

K-3 19- 25 students

4-5 21 -29 students

Secondary targeted class sizes in core areas:

22-32 students on average
