

Dr. Tim Nordin

Tim Nordin has served on the ECASD School Board since 2019 and has served as Board President since 2020. In that time, Tim has led the Board in adopting a new governance model designed to focus the Board and District on ECASD's most important goal: achieving results for our students. He is committed to helping the Board be as effective as possible in bringing the Eau Claire community vision for the success of our kids to fruition.

Originally from Hopkins, Minnesota, Tim Nordin attended Iowa State University where he received a B.S. in Physics along with his Iowa teaching license in 2002. From there, he taught high school science in Columbus Junction, Iowa, for five years before returning to the classroom himself. He and his family moved to New Jersey, where Tim attended Rutgers University and received a Master of Arts in Education in 2010, followed by a Ph. D. in Education with a focus on policy in 2014.

In 2015, Tim and his family joined the Eau Claire community when his wife, Dr. Terri Nordin, accepted a position at Mayo Clinic as the founding director of their Family Medicine residency program. He and Terri have two sons in Eau Claire schools, at South Middle School and Memorial High School as of 2021-2022.
