

## Peace of Mind

Project Lifesaver is a rescue program for Eau Claire County's most vulnerable individuals; both children and adults with cognitive impairments or medical conditions that put them "at-risk" to wander away and become lost.

Participants wear a bracelet around their wrist or ankle which enables their location to be tracked with special search equipment.

## Community Involvement

Project Lifesaver relies on partnerships with local law enforcement, fire and rescue agencies and other public and private organizations that assist both children and adults.

## Donations

Donations to Project Lifesaver of Eau Claire County are welcome and appreciated. Any donations made, will be used to purchase equipment or offset program expense for families unable to afford the cost to enroll. Please make checks payable to Eau Claire County Sheriff's Office, with "Project Lifesaver" in the memo line.

## *Does Your Loved One Wander?*

## **PROJECT LIFESAVER OF EAU CLAIRE COUNTY**

### Why Project Lifesaver?

Project Lifesaver uses radio technology to track a missing loved one, who has wandered away, through their bracelet.

Unlike other tracking device programs, like GPS, Project Lifesaver is not affected by weather.

Project Lifesaver has a proven record of locating lost loved ones in minutes or hours, instead of days, from the time the rescue team arrives. Project Lifesaver provides reliable, practical and affordable peace of mind.

### What are the Eligibility Requirements?

- ◆ The at-risk person requires one-on-one, 24/7 supervision.
- ◆ The person being enrolled must have a diagnosed cognitive impairment that hinders their decision making ability, putting them at-risk to wander unintentionally and get lost.
- ◆ The tracking equipment cannot replace proper care, monitoring, and oversight of the person at -risk.

### What is my Responsibility?

Family members are required to provide 24-hour, one-on-one care for the Project Lifesaver client and check the battery/transmitter at least once a day.

The battery will be replaced once per month by a member of the Project Lifesaver team.

### What is the Cost?

Participants are asked to pay a one-time transmitter cost of \$300.00 and a monthly fee of \$10.00 to cover the cost of replacing the transmitter band and battery monthly.

If the cost would prevent you from enrolling, a member of the Project Lifesaver Team can help locate funding that may be available through various resources to help defray those costs.

For more information, or to enroll someone into the program, call the Eau Claire County Sheriff's Office at:
