For this weeks' trivia, we dig back into the at home learning page on the ECASD website for the answer to: ***Why are the oceans filled with salt water?***

To answer this question, you will need to complete the "mystery science" activity on the ECASD at home learning page! Here's the link!

Once you've watched the entire video and talked about the questions, share your best answer to the question in sentence form (ask a grownup for help if you need it) with me by Friday!

Finally, **FLYNN STUDENTS!!** This week, I want to challenge you! I want each one of you to share with your teacher something that you have did this week that was a success, that felt good, that helped someone else (think CARES)!! Here are a list of ideas that I was thinking about:

- ***You completed your homework before noon! (Cooperation)***
- ***You read by yourself for over 30 straight minutes! (Self Control)***
- ***You did something around the house to help without being asked (made your bed, cleaned up the dishes, etc) (Cooperation & Empathy)***
- ***You solved a difficult math problem on your at home learning math work (Cooperation)***
- ***More!***

*Let's keep staying positive and sharing the good things that we do each day! If you want, include a picture of yourself doing or celebrating your victory with us!!*
