

Good Monday Morning Flynn Flyers! Today is May 18th, and here are your morning announcements!

We will start with the Flynn Flyer Promise:

I promise to learn and play peacefully

To be responsible and do my part

To treat others with kindness and respect

And to use self-control

I am proud to be a Flynn Flyer we are a school that CARES!

Well, as long as the all-day rain made yesterday, we certainly needed it! At last check, Eau Claire received 1.38 inches of rain! That may not sound like a lot when we compare it to snow in the winter, but that is a great deal of liquid water falling from the sky! I know that the farmers appreciated that steady soaker and so did my yard and plants! This week certainly is looking to paint a different picture! From Monday through Thursday we should expect nicer and dryer weather with temperatures steadily climbing into the 70's and possibly 80 by Saturday! There is rain in the forecast for Memorial Day weekend (next weekend) but we will keep an eye on that!

This is Student Materials Pick Up Week! As a reminder, we have three, 2 hour times set aside each day to have you stop by and pick up your school supplies. Those times are:

9-11

1-3

4-6

Please remember to drive a vehicle and to enter and exit through our main parking lot! If you have questions, please don't hesitate to email or call me!

Flynn Scavenger Hunt! Thank you for your continued participation in our fun EC/Flynn Scavenger hunt! Mrs. Hansen was spotted by a lot of students in front of Babe the Blue Ox in Carson Park! Now it is time for another staff member to try and stump us! 😊

Trivia! Trivia last week was unique! The question was in reference to which doll claims that she is from a small town in Wisconsin? IT'S **BARBIE!**

This week, we will only have 4 days to participate in trivia as there is no school on Friday of this week and no school the following Monday for Labor Day! So... For your FINAL Trivia question of the 2019-2020 School Year we go back to science..

The question is: **Which planet orbits around the Sun the FASTEST!?**
