

GOOD MORNING FLYNN FLYERS! TODAY IS MONDAY MAY THE 4TH AND HERE ARE YOUR ANNOUNCEMENTS

Let's start with the Flynn Flyer Promise:

I promise to learn and play peacefully

To be responsible and do my part

To treat others with kindness and respect and to use self-control

I am proud to be a Flynn Flyer; we are school that CARES

I hope you had an excellent weekend! The weather was beautiful! Lots of sun and temperatures on Saturday into the 70's! There was a lot of wind but hopefully you were still able to get outdoors and have some fun! The weather this week does not look as rain filled as last week with temperatures in the 50's. It was a chilly start to the week this week though! When I woke up the temperature was only 37!

On to Trivia! It is fascinating to me how our oceans have become salty! Thank you to those that spent the time to not only watch the video clips about our salty oceans but also those of you that were able to create great answers to the question! For those that are curious, the reason why the oceans are so much salty than our lakes, rivers and streams have a lot to do with time and ROCKS!

When rain hits the ground (and the rocks), it very slowly breaks those rocks down. Very small particles known as "ions" are washed away and eventually end up in the ocean. Those "ions" are actually the two ingredients needed to make SALT. So over millions and millions of years, this process creates our salty seas! Scientists believe that if you could remove all of the salt from the ocean, it would cover every inch of land with 500 feet worth of salt. THAT'S A LOT OF SALT!

Your trivia question for this week brings us back to Wisconsin and much closer to home. Your question:

What is the deepest lake in Wisconsin? Your answer cannot be one of the Great Lakes that borders our state either! Have fun doing your research on this lake and feel free to share your answer to the question and any other fun facts that you learn about this lake!

Finally, parents, I tried and tried over the weekend to get my Friday Blast video to load but it would not cooperate! I am going to try and re-do it today and re send it. Please look for that this afternoon and my apologies for not getting that out on Friday afternoon!

Students, don't forget that you have a Flynn homework hotline on Tuesdays and Thursdays with Mrs. Wendtland and Mrs. Hebert! If you have any questions about your math, reading, writing or word work, do not forget that they are an excellent resource along with your teacher!

So those are your announcements for this Monday, have a great day Flynn Flyers!
