

At-Home Art for Flynn Flyers

Choose from the options below (one or both) to explore Element of Art: FORM. I love to see what you have made! Upload a photo to [Artsonia](#) using school code: ZBMZ-TMYX!

Week of May 4-8, 2020

FORM: an object that takes up space
3D or 3 dimensional

ART CHOICE #1: Tin Foil Sculptures

Grab some tinfoil and explore smushing, bending and shaping it into different objects! If you would like to add to your sculpture think about painting it or coloring it with Sharpie markers.

ART CHOICE #2: Cardboard Tube Sculptures

Gather empty toilet paper, paper towel rolls or wrapping paper tubes. See what you can create with them! Try bending, cutting, and gluing/taping things to them. Could you build a city or make a family of animals? What other ideas do you have?

BONUS PROJECT IDEA:

Air Dry Clay Recipe:

Mix $\frac{1}{4}$ cup salt, $\frac{1}{4}$ cup water, and $\frac{1}{2}$ cup flour together in a bowl. Place an old box or newspaper on your table to play with the clay. Smush the clay between your hands. If the clay is too sticky, add a little more flour. Have fun creating different shapes and sculptures. Put it in a plastic bag to reuse or leave it out overnight to dry. You can add color with paint or markers.

Inspiration Artist Toshihiko Mitsuya

Click here to see him working with aluminum foil FORMS! Click here to watch Toshihiko creating a large sculpture.
