

# At-Home Art for Flynn Flyers

Choose from the options below (one or both) to explore the Element of Art: SPACE.

**SPACE** is the areas or distances between or in a work of art.

Space can be positive (focal point) or negative (background), 2D, or 3D.

Week of June 1, 2020

**Upload a photo of your completed art to Artsonia under 6/1 Elements of Art: SPACE using school code: ZBMZ-TMYX!**

I'd love to see what you have made!

## ART CHOICE #1: MONSTERS!! Big vs. Small

One way to use space is to make things big and small. (Big can seem close and small can seem far away too!)

1. Draw two monsters on the same piece of paper. One monster should be big and one should be very small. **Remember:** a monster can look like anything. Use your imagination!
2. OR look at the Monster Body Parts page [here](#) to get more ideas.

CHALLENGE: draw and color a background for your monsters to live together.

## ART CHOICE #2: NOTAN

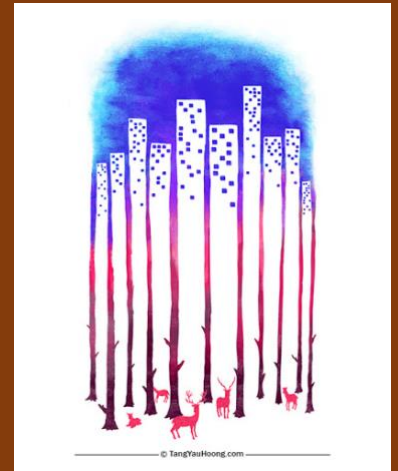

You'll need two different colors of paper—any kind, junk mail, wrapping paper, magazines. Once piece can be bigger than the other.

1. Draw half of an object on the edge of the smaller piece of paper.
2. Cut along the line—CUT CAREFULLY. You'll need all the pieces, even if you mess up!
3. On the big paper, glue the cut out piece along the edge of the original piece (symmetry line) to create a whole object!
4. Start simple, but try more complicated designs once you've got it.

**HINT:** Your composition is more interesting if you use most of the paper. Like the octopus.

## Inspiration Artist Tang Yau Hoong

Tang Yau Hoong is a Malaysian illustrator who likes to fool the eye! Look closely!

See more of [Tang's art](#).
