Spool knitter materials needed

- Toilet paper tube
- Tape or glue
- Popsicle sticks (or anything stiff—like old crayons, straws, tooth picks, etc) at least 4 works best.

Directions:

1. **Tape or glue your sticks onto the toilet paper tube equal distances apart as shown in the photo (so the sticks hang over the edge at the top.)**
2. **String or thread can be substituted for yarn, although your knitting will come out significantly different looking! **Follow the steps on the next page to get started knitting!****

Repeat Crafter

Spool knitting or French knitting

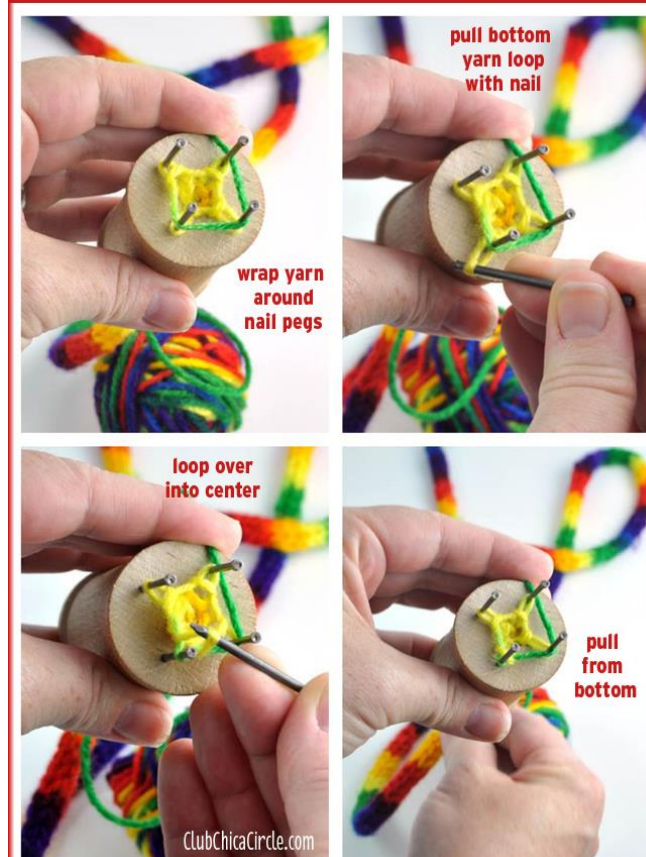

is a fun and easy way to create lots of interesting items! The best part is you can make a spool knitter out of almost anything in your house! On this page you'll find photos and steps needed to spool knit once you have built your knitter. You can also follow along with this [video](#) on Happy Hooligans!

What can you make with what you've knitted?
