

Instructions for Online Athletic Registration

Before you begin:

- Athletic Code: As part of the process, you will acknowledge receipt of athletic code information and attendance at a mandatory Athletic Code meeting. Please check with AD to view a virtual meeting prior to completing registration. You will have opportunity to review and/or print the athletic code within the registration process if you wish.
- Registration: The first step will be creating a family account. Please keep track of your account information as you will need it for future registrations. Each family will have only one account; multiple family members may be registered under the same account.
- Athletic Forms: You will be entering emergency contact information, doctor/insurance, and medical information. To make the process go smoothly, have that information available to you before you begin.
- Concussion Information: Within the registration process, you will be provided concussion and head injury information which you should review and/or print. You will be asked to acknowledge receipt of this information.
- Sports Physical forms are still done in paper format. If you are unsure of your athlete's sports physical status, please contact MHS Athletic Assistant, [Jon Redwine](#) (715-852-6326). Sports physicals are valid for up to two years.

If you have had a physical recently, you can upload it into the registration process. (Scan a copy or take a picture and save on your computer or device). If you prefer, you may submit a paper copy to the athletic office instead.

You will be asked to enter the date of your most recent physical in the online registration. If you do not know that date but believe it is still current, leave it blank and the athletic office will enter it. If it is out of date, the athletic office will contact you.

- Sports Meetings: Each sports team will conduct a parent/player meeting. The time/location of each meeting will be arranged by the sport coach. It may be done virtually. Contact information for each coach is available on the MHS Athletics homepage.
