

## 7. Programs of Study

A Program of Study is a sequence of coursework, co-curricular activities, work-based learning, service-learning, and other learning experiences. This sequence provides preparation for a student to pursue post-secondary options and ultimately a career in that area. There are 79 nationally recognized Programs of Study. The Eau Claire Area School District continues to develop local plans to assist planning by students and their families. A web link for these plans may be found at each high school's Student Services web page.
