

# Online Kindergarten Resources

## Through the ECASD website:

-Go to [ecasd.us](http://ecasd.us)

-Go to **Schools – Elementary Schools – Locust Lane**

- Under the **Academics** tab, there are resources for **At-Home Learning** and **Library Resources**. Library resources includes fun websites for kids, including PebbleGo and Tumblebooks, which students are already familiar with.

## Additional Resources:

# MATH GAMES USING PLAYING CARDS

## **Make 10**

Remove all face cards from the deck. Deal 12 cards face up. The players take turns finding different combinations that add up to 10. When all possibilities are exhausted, more cards are dealt for another total of 12 each.

## **Memory**

Arrange all the cards (minus the face cards) face down in rows. Players take turns turning over two cards at a time. If the numbers match, the player wins the cards and takes another turn. If they do not match, they are flipped back over and the next player goes.

## **Addition Quick Draw**

Deal all of the cards out to two players. One player calls, "Draw" and both players turn over their top card. The first player to add the two numbers showing and say the correct sum wins the cards. The winner is the player who has the most cards.

Note: If an incorrect sum is said, that player must return a card already won to his or her pile.

## **Guess My Number**

One person holds a secret playing card. Take turns around the room guessing what the number is. The types of questions asked have to use math vocabulary, such as, "Is it even?" "Is it odd?" "Is it greater than 10?" "Is it a factor of 20?" and so on.

The student can only answer with a "Yes" or "No", until the actual number is guessed at.

# SIGHT WORD PRACTICE IDEAS

## Sight Word Smash-Up

You will need a few beanbags (or any alternative that works!), index cards, and a marker. Write a sight word on each card. Spread the word cards on the floor. (You could also use the sight word cards from the blue bag.) Shout out words and have your child toss beanbags onto them. Next, have your child shout out the word and see if you can hit them with the beanbags.

## Word Walk

You will need white paper and a marker. Write a sight word on each of the papers or use the words from your blue bag to create a path all around the house. Start at the beginning of the path and have your child read each word as she walks to the end of the path. Your child can pick up the paper each time she reads a word. Repeat the game by creating a new path.

## Spot the Word

Write 20 sight words on 20 pieces of paper. Stick the words on a wall or set them out on the floor. Get a flashlight and dim the lights. Shine the light on a word. Ask your child to read the word. Switch it up by reading a word and having your child find it with the flashlight. You can make the activity even more fun using black paper and a glow-in-the-dark crayon or marker.

## Word Hunt

Hide the words around the house for your child to find. You can also search for the words in the books you are reading together!

## Words we have learned:

I	is	play	as	do
a	here	see	you	said
the	like	come	his	put
look	for	my	from	of
are	we	can	go	and
it	to
