

Aaron Harder

Aaron Harder is an Eau Claire native, a graduate of Eau Claire public schools and UWEC, and a local business owner. Aaron and his wife Elizabeth have 4 boys who are all currently attending ECASD schools!

Aaron graduated from UWEC with a degree in Computer Science, moved to Minneapolis to pursue a career in the software industry, and eventually moved to Brooklyn, New York. After starting his own web software business with offices in New York and Eau Claire, he also helped to establish a few educational websites, including Brainpop.com and LearningLab.org -- both of which still run today.

After 15 years in New York, Aaron brought wife Elizabeth back to his home town of Eau Claire, where they have both been active in supporting education and our local public schools.
