

100 Charts for Articulation

FREEBIE

by Natalie Snickers,
MS, CCC-SLP

Directions:

These five open-ended pages are designed to be used to elicit 100 trials of a particular target in speech-language therapy. These are particularly useful for articulation and phonology targets.

Simply print the page(s) you would like to use, and have your student color or cover up an image for each trial.

Terms of Use:

Please note that this download is intended for the use of one SLP/teacher/user only. Please direct others interested to the original product page on TpT; multiple user licenses are available at half price for paid items. It is illegal and a violation of United States copyright law to redistribute, sell, email to or copy for others, or post any part of this item online, including on websites such as Amazon Inspire or school district websites.
