

About Updating iPad Software

The functionality of iPads in the ECASD depend on both the iPad and iPad apps being the most up to date for each to run efficiently and successfully. Please complete the steps below to update the iPad software. All iPads need to be updated as soon as possible for better functionality as well as to prepare for testing. Please guide students with the following instructions and/or video tutorial. [Link to support video](#) 

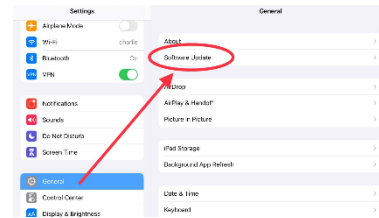

Updating iPad Software

Note: * **Battery needs to be at least 55% to do the update.** Have students FULLY CHARGE iPads the night before and either do the update in the morning OR charge all day and update later in the day.

**Update can take 30-45 minutes. Start update when you will not be using iPads for at least 30-45 minutes.

<p>1. Confirm your battery is at least 55% full. *If not, plug into power.</p>	
<p>2. Confirm you are on ECASD_Wireless if at school, or your home network.</p>	
<p>3. Tap Settings</p>	
<p>4. Tap General</p>	

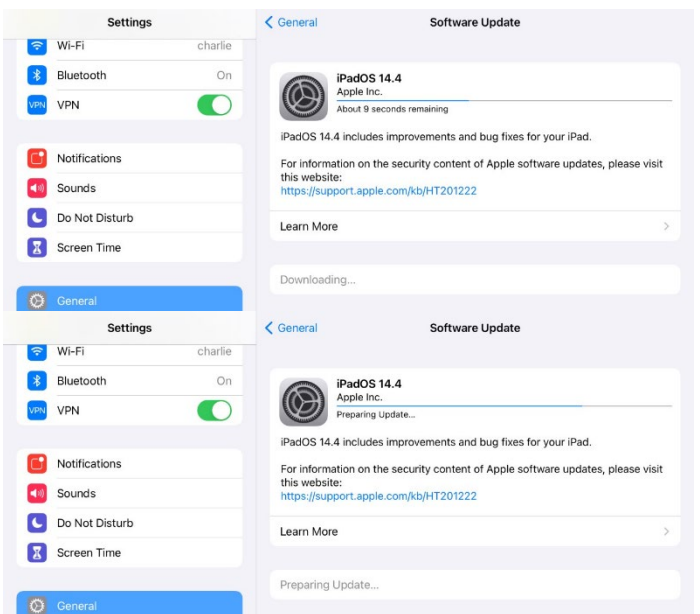

5. Tap **Software Update**

6. Tap **Download and Install**

7. Your iPad will start the iOS download and will look as if nothing is happening. This process will about 10-15 minutes.

8. Tap **Install Now**

9. **Wait.** Your iPad will install and restart.
This will take about 20-30 minutes.

10. Tap the **Home button.**

Hello

Press home to open

11. Tap **Continue.**
You may now use the iPad.

Software Update Complete

Your iPad has been updated to iPadOS 14.4.
