

Agenda...April 14th-April 17th

**Remember...15 to 20 minutes on each subject...take breaks in between.
Surf on all the different websites provided.**

●Mathematics●

○ Unit 2, lessons 1-4 in the ThinkCentral app (be sure they access it via their school iPad). Only ONE lesson a day... make sure Unit Six lessons have been complete.

- Lesson 2.1 Arrays and Area Models
- Lesson 2.2 Connect Place Value and Multiplication
- Lesson 2.3 Mental Math and Multiplication
- Lesson 2.4 Model One-Digit by Two-Digit Multiplication
- Challenge for the week...[Pyramid Solitaire](#)

●Reading●

- Read the [History of Yum and When Chocolate Tasted Yucky](#)

Do this before the writing activity!

- Daily reading for 30 minutes. Read a book, magazine, read with the Sora app or anything we provided

●Writing●

■Continue the Learning Journey

- "The History of Yum" is filled with mouthwatering details about how chocolate smells and tastes. Choose a different food and write a paragraph about it on Google Docs. Without naming the food, describe how it looks, smells, tastes, and feels. Use a lot of details in your description. When you're finished, read your paragraph to a friend or family member and see if they can guess the food based only on your description. Be sure to share it with your teacher.
- Imagine you are creating your own candy bar. What would you want it to taste like? What ingredients would you include? Create an advertisement for your candy. Be sure to include the name of the treat, descriptive details, and a drawing!

●Social Studies●

■Western Region

- Write a paragraph of what interested you...what did you learn...what would you want to tell others about the western region of the United States.

■States and Capitals

- Practice knowing location, capital, and some fun facts about each state...[Seterra](#)

■Just a Couple More To DO's■

1. Setting up your email
2. Meet on TEAMS
3. Email your teacher if you need any help. Remember she is here to help!
