Equal Educational Opportunities

All ECASD programs and classes (including Career & Technical Education and Project Lead the Way) are available to students regardless of their sex, race, religion, color, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, gender identity or physical, mental, emotional or learning disability.

The District encourages informal resolution of complaints concerning alleged discrimination. If any person believes that the Eau Claire Area School District or any part of the school organization has failed to follow the law and rules of §118.13, Wis. Stats., the Americans with Disabilities Act, Title IX, Title VI, or Section 504 or in some way discriminates against students on the basis of sex, race, religion, color, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, gender identity or physical, mental, emotional or learning disability he/she can bring or send a complaint to Kay Marks, Executive Director of Human Resources, 500 Main Street, Eau Claire, WI 54701. Ms. Marks can be contacted at 715-852-3051.

The Eau Claire Area School District Non-discrimination policy can be found at <http://www.ecasd.us/ECASD/media/District-Site/PDFs/NondiscriminationPolicy2013.pdf>

Eau Claire Area School District: Multi-level System of Support

Students reach educational targets and benchmarks in different ways. Several factors can impact when students reach proficiency in a course of study. In Eau Claire, our goal is that all students will meet or exceed our benchmarks. Therefore, we work to provide educational services within a framework known as a Multi-level System of Support (MLSS).

This means that we provide rigorous, differentiated educational programming within our universal coursework. Some students will need additional support and/or enrichment to meet or exceed grade-level benchmarks. Below is an explanation of some of the ways students can be supported in the ECASD MLSS framework in Middle School.

- **English Learners:** Students who speak a language other than English at home may qualify for English language (EL) support. For additional information on EL services, please contact the school's EL teacher or EL Program Support Teacher, Brianna Smit at 715-852-3140 or bsmit@ecasd.us . You may also contact the district bilingual helpline at 715-852-3555.
- **Gifted Education:** The Eau Claire Area School District provides for the special learning needs of students who exhibit gifted behavior in any of the following areas: General Intellectual Ability, Specific Academic Ability, Artistic Ability (including art, music, drama), Leadership Ability, and Creative Ability.

Students are assessed for appropriate math, science, and language arts placement during their middle school years. If you are interested in learning more about enrichment and/or acceleration, please contact your school counselor or gifted resource teacher. You may also contact the district Gifted Education Coordinator, Michelle Kooiker, at 715-852-3110 or mkooiker@ecasd.us.

- **Special Education:** Special education services may be delivered in a general classroom, pull out environment; or a combination of these options. Individual Educational Plans (IEP) are designed to meet the student's educational needs with accommodations and/or modifications. Course selection decisions are made based on the student's IEP. Most special education courses parallel traditional core academic offerings, but some are significantly modified in content and focus. See your school counselor or IEP team manager for more information. You may also contact the district Director of Special Education, Mandy VanVleet, at 715-852-3074 or mvanvleet@ecasd.us.

- **Course Credit Requirements:**

The District has established standard credit requirements for high school graduation. All required credits must be earned by completing the course with a minimum passing grade while the student is enrolled in the high school grades. While students in grades 7 and 8 may receive high school credit for the following classes: Algebra, Geometry, Biology, and World Language I, the credit earned shall not be used to meet the minimum credit requirements in math, science, or elective areas in high school. Students will still need to complete the required number of credits in each department during grades 9-12. All courses, regardless of level, will be taught by a teacher licensed in the subject/grade.

Grade 8 Required Courses

8640	Gateway To Technology: Design and Modeling/Automation and Robotics	Grade 8	Required	Semester
-------------	---	---------	----------	----------

This course has two units. The first unit, Design and Modeling, uses solid modeling software (a sophisticated mathematical technique for representing solid objects) as part of the design process. Utilizing this design approach, students learn how design influences their lives. Students also learn sketching techniques and use descriptive geometry as a component of design, measurement and computer modeling. Students brainstorm, research, develop ideas, create models, test and evaluate design ideas and communicate solutions. In the second unit, Automation and Robotics, students trace the history, development, and influence of automation and robotics. They learn about mechanical systems, energy transfer, machine automation and computer control systems. Students acquire knowledge and skills in problem solving, teamwork collaboration and innovation. **This course is part of the Project Lead the Way program and prepares students for the Introduction to Engineering course offered to freshmen in high school. It is part of the ECASD Science, Technology, Engineering, and Mathematics (STEM) Pathway.**

8650	Family & Consumer Sciences 8	Grade 8	Required	Semester
-------------	---	---------	----------	----------

FACS 8 is a semester course that provides students the opportunity to learn essential life skills. Students will utilize food preparation labs and learn about healthy food choices. Cooperation and problem solving are evaluated during all lab experiences. 8th graders will explore the world of work and will use the website, Career Cruising to enhance high school course planning and post-secondary goal setting. Other topics include family relationships, employability skills, housing and design, consumer and financial skills, creative fabric projects, child development, and consumer and financial smarts.

8700	Physical Education 8	Grade 8	Required	Year - Alternate Days
-------------	-----------------------------	---------	----------	-----------------------

The eighth grade curriculum provides opportunities for students to develop lifetime leisure activities. Emphasis is placed on individual sports. Emphasis is also placed on participation and skill development of all students regardless of ability level. Teamwork, cooperation, healthy competition, fitness, and effort are also stressed at this level. Students are required to wear the physical education t-shirts that were provided in 6th or 7th grade. If a replacement is needed, a new t-shirt must be purchased by parents/guardians. Students new to the school in 8th grade will be provided a t-shirt at no cost.

Grade 8 Electives

8810 Art & Design Grade 8 Elective Semester **OR** Year – Alternate days

This course introduces students to new art experiences as well as builds on concepts and skills learned in previous art classes. This class combines both 2-dimensional and 3-dimensional art. Examples of 2-dimensional experiences may include the following: drawing, painting, tessellation design, etching, and paper arts. Examples of 3-dimensional experiences may include the following: metal making, ceramics, sculpture, and environmental and packaging design. Students will also be introduced to various artists, art styles, art careers, and world cultures. Different themes may include: art from various cultures, human proportion, information design, and visual culture; as well as additive and subtractive sculpting techniques. Art materials and techniques may include: acrylic and watercolor paints, clay, glazes, metals, plaster, carving foams, and the use of art software, such as Adobe PhotoShop Elements.

8820 Health 8 Grade 8 Elective Semester **OR** Year – Alternate days

This course builds on the foundation of knowledge and life skills learned in 7th grade required health classes. It gives students a very relevant, interactive, fun, and exciting opportunity to not only think about the many decisions they will make; but also to learn more about those issues so that good decisions can be made! This is a great place for self-reflection and discovery promoting an excellent transition as students move from middle to high school.

8830 Business Exploration Grade 8 Elective Semester **OR** Year – Alternate days

Have fun and explore business concepts as you create and run a business. Develop products and/or services; market your business through the development of a website, commercials, and print media; experience selling; and keep financial records. Use word processing, desktop publishing, spreadsheet, database, presentation, digital imaging, Internet, and web page applications; and discover how cooperation, leadership, and good decision-making skills are keys to business success. In addition, research the impact education, skills, and career choice have on your financial future.

8840 Engineering & Design Grade 8 Elective Semester **OR** Year – Alternate days

In this Technology and Engineering course, students will investigate the designed world by creating projects and completing activities in the areas of: material, manufacturing, construction, communication, transportation, energy, and biological technologies.

8850 FACS-Expo Grade 8 Elective Semester **OR** Year – Alternate days

FACS EXPO is a class that uses the foods and textiles labs to explore creative cooking, fun fabrics and managing your money. Some of the units of study/ projects may include; The iron chef cooking competition, ultimate smoothie challenge, recipe creation, cooking world cuisines, textile dying, fabric weaving, sewing recycled materials, machine embroidery, and tips for you and your money. This is a class for students that enjoy hands on activities and opportunities to explore their creativity.

8860 Lamination Process – DeLong only Grade 8 Elective Semester **OR** Year - Alternate days

This course provides students with an exploratory experience that includes planning, gluing, layout, forming, and shaping of laminated materials. Students may choose to make large or small projects. Students can make complex projects like bows, lamps, skateboards, or canoe paddles; or they can make small projects such as salad forks and spoons, bats, bowls, jewelry, and broad boards. Students will acquire knowledge and develop working skills centered on the construction of laminated materials. Students will use epoxy glue, plastics, woods, and other materials suitable for lamination.

8870 Recreational Activities

Grade 8

Elective

Semester **OR**

Year - Alternate days

This class will give students the opportunity to participate in many outdoor/indoor physical activities. Students will learn individual lifetime fitness skills as well as an appreciation for the outdoors. The class will also work on developing leadership skills, positive self-esteem, critical thinking skills, problem-solving skills, and working in diverse situations through an extension of physical education. We will explore the possible opportunity of a field trip at the end of the course.

8880 Introduction to Computer Science – South only

Elective Grade 8

Semester **OR**

Year - Alternate days

This course introduces students to the Project Lead the Way Computer Science curriculum. Students who take this class are prepared to take Computer Science Essentials in high school. The course combines two nine-week units described below:

Computer Science for Innovators and Makers

Throughout the unit, students will learn about programming for the physical world by blending hardware design and software development, allowing students to discover computer science concepts and skills by creating personally relevant, tangible, and shareable projects.

App Creators

This unit will expose students to computer science as a means of computationally analyzing and developing solutions to authentic problems through mobile app development, and will convey the positive impact of the application of computer science to other disciplines and to society.

8890 Advanced Computer Applications and Coding – DeLong and Northstar only

Elective Grade 8

Semester **OR**

Year - Alternate days

This course builds on the knowledge and skills learned in the 6th grade Intro to Computer Applications and Coding class. Students will learn more advanced commands in common word processing applications such as Microsoft Word, Microsoft PowerPoint, Microsoft Excel, and Google Docs. Students will learn how to create and share content on their own web pages. A focus will be put on structure and styling the pages using HTML and CSS. Students will also build on their coding experience as they program animations, interactive art, apps, games, and devices using programming concepts and the design processes that computer scientists use daily. By the end of the course, students will be able to apply the programming principles they mastered to learn other programming languages.

SOUTH 8th GRADE REGISTRATION FORM

Student Name: _____ DOB: _____
Last First MI

Parent/Guardian: _____ Phone Number: _____

Parent Signature _____

Student Signature _____

Required Courses			
Course Title	Credit	Course Title	Credit
English	1.0	FACS	.5
Math	1.0	Gateway to Technology	.5
Social Studies	1.0	Physical Education	.5
Science	1.0	Total Required Credits	5.5

Elective Courses			
<i>Depending on enrollment, some elective courses may not be offered. Student's alternate choice will be added to the schedule based on rank order and availability.</i>			
Course Title	Semester or alternate day	Credit	Rank 1-6
Art & Design	Semester or alternate day	.5	
Business Exploration	Semester or alternate day	.5	
Engineering & Design	Semester or alternate day	.5	
FACS-Exploration	Semester or alternate day	.5	
Health	Semester or alternate day	.5	
Intro to Computer Science	Semester or alternate day	.5	
Recreational Activities	Semester or alternate day	.5	
Band	Alternate day	.5	
Choir	Alternate day	.5	
Orchestra	Alternate day	.5	
Exploring Music	Alternate day	.5	
French**	Full Year	1.0	
German**	Full year	1.0	
Spanish**	Full year	1.0	

Elective Courses	
Course Title (A music choice must <u>include</u> the instrument you play)	Credit
1.	
2.	
3. (if needed to meet 1.5 credits)	
Total Elective Credits	1.5
TOTAL CREDITS REQUIRED FOR 8TH GRADE	7.0

Alternate Courses:
 Please rank your top 6 elective courses (in the box on the right) according to your interests with number one being the class you want the most. Every effort will be made to give you your top choices, but it is possible that you will receive an alternate.

Due back at school by: _____

****If you would like to continue in a world language You must take the same language you had in 7th grade.**
